## AllianceHCM is a trusted partner of Amegy Bank of Texas and the perfect solution for your clients.

### About AllianceHCM

---

Founded in 1989, AllianceHCM is heavily invested in delivering the most advanced technology and providing the best user experience possible to each of our clients. Unlike single sign-on systems, the Alliance Software Suite stores all employee information in one secure database so updates are made in real-time and eliminates errors that occur when entering or importing data from several different systems.

Our powerful, easy-to-use solution provides the automated tools and high-quality information needed to help your clients control labor costs, minimize compliance risks, and improve workforce productivity. The AllianceHCM Software Suite simplifies everyday work processes and gives your clients time back each day to focus on more important things.

### Like Amegy, We're About Service

---

Though our complete solution satisfies the needs of our clients, we're always focused on delivering personalized and professional service. At Alliance, we work directly with your clients to make their experience smooth and simple from start to finish.

When your clients choose AllianceHCM as their trusted provider, they are assigned to a committed service representative available via phone or email.

In an industry that often over promises and under delivers, we're the HCM partnership you've been looking for!
