

Manager Self-Service

Tackle priorities efficiently to build teams that last

Managers are overloaded and they need support

A manager's work never stops and it only piles up. One missed approval can lead to short-staffed shifts, frustrated employees, and turnover. Manager Self-Service is built as a mobile-first application that lets managers tackle priorities effectively, wherever they are.

51%

Manager

of additional responsibilities are shifted to managers

Gartner, reported in Harvard Business Review

01

Tackle critical tasks the moment they arise

- Time-off and expense approvals
- Team calendar planning
- Reports and decision making

02

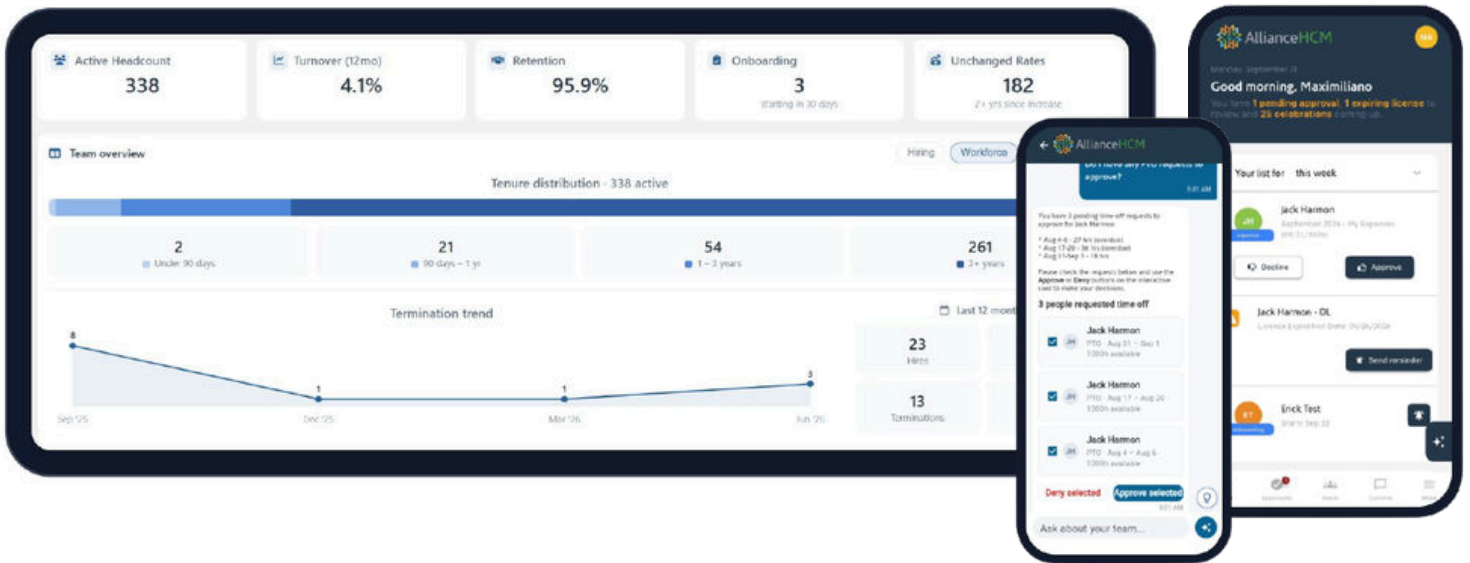

Spot attrition with employee insights

- Retention risk
- Compliance gaps
- Turnover trends

03

Keep teams engaged and informed

- Reminders on priorities
- Stalled onboarding notification
- Team milestones and celebrations

Use Cases

For Managers & Supervisors

- Approve timecards before payroll cutoff to ensure team get paid on time
- Look up employee's role, contact info, or PTO balance during a meeting without waiting on HR
- Plan ahead by getting a good understanding of turnover and retention before a staffing crisis occurs
- Get notified when an onboarding task is overdue or stalled to avoid a chaotic first day experience
